Summary

I am a passionate and hardworking front end developer with a solid 3years of experience in the field. I have worked with some of the leading and preferred APis, libraries and tech stacks that developers use during that time. I am always learning new skills and upskilling those that I am familiar with to keep up with trends in the industry.

Experience

1. **Front End Developer**
   @ MK Innovations (Jan 2022 – Dec 2022)

   - Developing the front for web, android and ios platforms. Optimizing the apps for each platform using a single tech stack
   - Using data to make the applications more interactive and responsive
   - Main Tools – NodeJs, Angular, Typescript, SCSS, Firebase, HERE Maps, HTML5

2. **Front End Developer (Freelance)**
   @ Yellow Bin SA (Nov 2021 – Jan 2022)
